What's TechNile

TechNile is a startup based on a blended learning model that combines online and offline learning methods and can enhance the effectiveness and efficiency of education. TechNile targets rural and marginalised communities, which are the most in need of digital literacy and inclusion, and provides low-cost or subsidised solutions, as well as engaging local partners, such as schools, NGOs, or community leaders.

TechNile's Mission

Is to provide innovative and accessible digital literacy solutions that can meet the diverse needs and preferences of Sudanese people, and help them to adapt and thrive in the digital age.

TechNile' goals

- Our primary goal is to achieve universal digital literacy in Sudan. We aim to provide innovative and accessible digital literacy solutions for various sectors and audiences in Sudan, especially the youth, women, and rural and marginalized communities. Our goal is to make digital education not only informative but also engaging and enjoyable, fostering a culture of continuous learning and curiosity. TechNile is dedicated to ensuring that our programs actively engage and empower women and girls. We also aim to break gender stereotypes and create an inclusive learning environment.

Our Services

TechNile organises workshops in rural and urban areas to raise awareness about the benefits and opportunities of digital literacy

TecNile offering webinars, workshops, and online courses with free certificates.

TechNile connects students with experienced professionals from the technology sector who can provide mentorship and guidance.

Things to know a bout TechNile

TechNile bridges the gab between the academia and the industry by making real visits to Schools/ universities.

Members of TechNile are knowledge seekers who are passionate about learning and strive to keep a step ahead of their competition.

We provided one webinar on data analysis delivered by Mrs. Isra Adam.
